They came in the superintendent's private car, and were accompanied by other officials of the system. They were taken to lunch and shown about by Mayor Parker. The object of the visit was to settle the matter of depot facilities and examine Bull creek with a view of establishing a reservoir to supply both railroad companies with water. Mayor Parker was requested to make no statement for the present, with reference to depot changes, and await official announcement from the vice president, but no confidence is abused in saying the result will be highly gratifying to all.
